Don't Let "Penny" Parts Cost You Dollars in Downtime!

Better Organization of Your Fasteners & Small Parts

Resulting in:

- **Increased Productivity**
- **Reduced Downtime**
- **Better Cost Controls**
- **Cleaner, More Efficient Tool Crib Management**

Features:

- GLF Custom Assortment Program - provides only the fasteners you need to meet your manufacturing and maintenance needs; controls cost by eliminating the purchase of unneeded parts
- Heavy Duty Storage Bins/Drawers - built to withstand the harshest manufacturing conditions
- Labeled Part Locations - makes finding the right part easy and quick
- Parts Consolidated in Single Location - makes for easy visual location of inventory, reduced stock-outs of needed parts; eliminates overstocking

Maintenance Repair Operations

As a leading supplier to the Manufacturing community, GLF understands the challenges that drive your business. Our account managers have the training and expertise to enable them to recommend solutions tailored to your needs and implement MRO solutions that reduce your total cost of ownership.

When you select Great Lakes Fasteners, you're adding a business partner that is driven to maximize your operational and maintenance efficiency, while you focus your firm's resources on what makes you great.

At GLF we incorporate the Principles of Lean to optimize your fastener parts inventory. Your GLF account manager will assist you in designing a program that will improve your overall profitability and match supply with your demand.

- Dedicated and experienced account manager
- Bar-coding technology and customized labeling program
- Usage reporting so you can monitor supply and demand
- High quality products backed by our return policy
- Order preview that lets you approve your order before it is submitted
- Over 60,000 products in stock
- Eliminate costly downtime due to lack of inexpensive fasteners
- Reduce the time and effort of excess paperwork and ad hoc re-stocking
- Eliminate costs caused by overstocking
- Reduce "hidden" costs like expedited delivery freight charges
- Huge assortment of fastener bin and drawer options (Standard/Metric)
- Idle/Obsolete program to insure you have the right parts
- ISO 9001:2008 Certified

Your business is unique and you deserve an MRO solution designed to meet your objectives. GLF's MRO Inventory program puts you in control by allowing you to select from our menu of service options and design a system that delivers to your expectations.

Great Lakes Fasteners has been simplifying the sourcing of standard, metric, military spec and special fasteners for its customers since 1958. GLF also offers many customized solutions including – kitting/packaging, sub-assembly, managed inventory programs and rapid prototyping.

GLF's unwavering commitment to provide our customers with quality products and services on time and at the right price is what makes us different than the rest.

When it comes down to fasteners and precision industrial components, GLF is the clear choice.
